

## PUBLICATIONS:

1. "Constructing three-manifolds from group homomorphism," *Bulletin of the American Mathematical Society* 74 (1968), 936-940.
2. "Three-manifolds with fundamental group a free product," *Bulletin of the American Mathematical Society* 75 (1969), 972-977.
3. "Heegaard splitting and splitting homomorphisms," *Transactions of the American Mathematical Society* 144 (1969), 365-379.
4. "Stable equivalence classes of splitting homomorphisms," *Topology of Manifolds* (edited by J. C. Cantrell and C. H. Edwards) (1970), 153-156.
5. "On certain subgroups of the fundamental group of closed surface," *Proceedings, Cambridge Philosophical Society* 67 (1970), 17-18.
6. "Surfaces embedded in  $M^2 \times S^1$ ," *Canadian Journal of Mathematics* XXII (1970), 553-565.
7. "Retracting three-manifolds onto finite graphs," (with D. R. McMillan), *Illinois Journal of Mathematics* 14 (1970), 150-158.
8. "Nonretractable cubes-with-holes," *Michigan Journal of Mathematics* 18 (1971), 193-201.
9. "Finitely presented subgroups of three-manifold groups," *Inventiones Mathematicae* 13 (1971), 335-346.
10. "Indecomposable coverings of finitely generated groups," *Proceedings, Third Annual Mathematics Conference, University of Southwestern Louisiana, Lafayette, Louisiana, (1972)*.
11. "Finiteness properties in three-manifold groups," (with C. F. Miller, III) *Manuscript, Institute for Advanced Study, Princeton, New Jersey (1972)*.
12. "The structure of three-manifold groups," mimeo lecture notes, *Institute for Advanced Study, Princeton, New Jersey (1972)*, 80 pp.
13. "Fundamental groups of three-manifolds which are extensions," (with John Hempel), *Annals of Mathematics* 95 (1972), 86-98.
14. "Three-manifolds which fiber over a surface," (with J. Hempel), *American Journal of Mathematics* XCIV (1972), 189-205.
15. "Geometric realizations for free-quotients," *The Journal of the Australian Mathematical Society* XIV, 4 (1972), 411-418.
16. "Varieties of groups and three-manifolds," (with B. Evans), *Topology* 12 (1973), 83-97.

17. "Roots, relations and centralizers in three-manifold groups," Geometric Topology, Springer-Verlag (1974), 283-309.
18. "Seifert fibered spaces in irreducible, sufficiently-large three-manifolds," (with P. Shalen), Bulletin of the American Mathematical Society 82 (1976), 765-767.
19. "The peripheral structure of three-manifolds," (with P. Shalen), Topology 16, (1977), 347-367.
20. "A new decomposition theorem for irreducible, sufficiently-large three-manifolds," (with P. Shalen), Proceedings of the Symposium on Pure Mathematics, American Mathematical Society, 32 (1977), 209-222.
21. "Homeomorphisms of surfaces and periodicity," (with P. Shalen), Topology 16 (1977), 347-367.
22. "Geometric subgroups and manifold compactifications," Proceedings, Eighth Annual Mathematics Conference, University of Southwestern Louisiana, Lafayette, Louisiana (1978), 50-61.
23. "Seifert fibered spaces in three-manifolds," (with P. Shalen), Geometric Topology, (edited by J. C. Cantrell), Academic Press (1979), 91-99.
24. "An algebraic determination of closed orientable three-manifolds," (with R. Myers) Transactions of the American Mathematical Society 253 (1979), 149-170.
25. "Seifert fibered spaces in three-manifolds," (with P. Shalen), Memoirs, American Mathematical Society 21 (1979), 192 pp. +viii.
26. *Lectures on Three-Manifold Topology*, Conference Board of Mathematical Sciences/American Mathematical Society Lecture Publications, 43 (1980) Providence, Rhode Island, 251 pp. + xii.
27. "On ends of groups and Johansson's deformation theorem," Lectures in Mathematics (edited by U. Koschoake and W. Neumann), 788 Springer-Verlag, New York (1979), 62-68.
28. "Incompressible surfaces in punctured torus bundles," (with M. Culler and H. Rubinstein), Proceedings of the London Mathematical Society (3), 45 (1982), 385-419.
29. "An algorithm to decide if a three-manifold is a Haken manifold," (with U. Oertel), Topology 23 (1982), 195-209.
30. "Adding a two-handle to a three-manifold: An application to Property R," Proceedings of the American Mathematical Society 92 (1982), 288-291.
31. "A piecewise linear theory of minimal surfaces in three-manifolds," (with J. H. Rubinstein, Proceeding of the Centre for Mathematical Analysis 10, (1985), 99- 110.

32. “PL equivariant surgery and invariant decompositions of three-manifolds,” (with J. H. Rubinstein), *Advances in Mathematics*, Vol.73, No. 2 (1989).
33. “PL minimal surfaces in 3-manifolds,” (with J. H. Rubinstein), *Journal of Differential Geometry*, 27 (1988), 493-524.
34. “Complete decomposition of 3-manifolds,” (with J. Tollefson), *Illinois Journal of Mathematics*, Vol 39, Number 3, (1995), 385-406.
35. “Haken Manifolds,” *ENCYCLOPAEDIA OF MATHEMATICS*, Kluwer Academic Publishers, Boston, (2000).
36. “Decision problems in the space of Dehn fillings,” (with E. Sedgwick), *Topology* 42,(2003), 845-906.
37. *Normal Surface Theory*, Accepted by American Mathematical Society (completion expected in 2004).
38. “Efficient triangulations of 3-manifolds,” (with J. H. Rubinstein) (in preparation) .
39. “0-efficient triangulations of 3-manifolds,” (with J. H. Rubinstein) *J. Differential Geometry*, 65, (2003), 61-168. (accepted) (2002).
40. “1-efficient triangulations of 3-manifolds,” (with J. H. Rubinstein) (in preparation).
41. “Layered triangulations of three-manifolds,” (with J. H. Rubinstein) (in preparation).
42. “Blow-ups of ideal triangulations,” (with J. H. Rubinstein) (in preparation).
43. *One-vertex, ideal, and efficient triangulations of 3-manifolds*, (with D. Letscher and J. H. Rubinstein) (in preparation).
44. “The projective solution space: vertex solutions,” (with L. Reeves) (in preparation).
45. “Finiteness of Heegaard splittings,” (with J. H. Rubinstein) (in preparation).
46. “Finding planar surfaces and the word problem,” (with J. H. Rubinstein and E. Sedgwick) (in preparation).
47. “Layered triangulations and Heegaard splittings I:  $S^3$ ,  $S^2 \times S^1$ , and Lens spaces,” (with D. Letscher, J. H. Rubinstein and E. Sedgwick) (in preparation) .
48. “Layered triangulations and Heegaard splittings II: Small Seifert fiber spaces and torus bundles,” (with D. Letscher, J. H. Rubinstein and E. Sedgwick) (in preparation).
49. “Algorithms for essential surfaces in 3-manifolds.” *Contemporary Mathematics*, Vol 314, 2002, 107-124.
